

## LUTHER BURBANK MIDDLE SCHOOL

### Arts Tech Community Magnet

Our ATC Magnet is a unique Magnet School in the Los Angeles Unified School District. Luther Burbank Middle School: Arts, Tech, Community Magnet welcomes students who are interested in exploring their different potentials in the fields of visual/performing arts, engineering, language, and leadership. We foster an academic and social environment that supports students as they figure out who they are and who they want to be by providing high-quality instruction and ample elective and extracurricular opportunities that inspire students to connect, engage, and thrive. Students will explore their potential through the following programs:

- College Preparatory Mathematics (CPM)
- Units of Study Reading and Writing Workshop
- Student Congress
- Electives in makerspace, visual arts, Spanish, rock band, drama, and computer science
- Walking field trips that directly support our Highland Park community
- Field trips and guest speakers from programs like CAMFEL character building, MOCA, Point Fermin by the sea, Getty Villa, La Brea Tar Pits, mountain biking, the L.A. Arboretum, JPL, and visits to local universities

Our thoughtful magnet program was designed, and continues to evolve, with middle schoolers at the center of decisions. We are two magnets, one school, achieving excellence in the middle.
